DETAILED ACTION

Response to Amendment

Claims 15-21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the replies filed on 2/25/08.

Applicant's election with traverse of claims 22-25 in the reply filed on 2/25/08 is acknowledged. The traversal is on the ground(s) that the methods of play are similar. This is not found persuasive because although the methods are classified in the same class and subclass, the inventions are unrelated because their method of play, as understood, is different games.

The requirement is still deemed proper and is therefore made FINAL.

a) in claim 22 line 8, "ran kings" has been changed to ---rankings---

Allowable Subject Matter

Claims 22-25 are allowed.

The following is an examiner's statement of reasons for allowance: Patentability has been found because the prior art fails to suggest or show the combination as set

forth in the independent claim 22 including the specific method of biasing . This requirement is not seen or fairly suggested by the prior art of record.

Prior teachings fail to anticipate or render obvious applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
